

HOW WE HELP YOU MAKE MONEY!

We are increasing the interest rate on the Society's savings and investment accounts. The new tax structure coming into effect next April allows us to do this without increasing the Society's mortgage rate.

The returns on your savings are high, even over short periods. From February 1st we pay regular savers 7% nett which is equal to 10% gross when worked out at the new anticipated personal tax rate of thirty per cent. But take a look at all our schemes before you decide which one suits you best.

Investment Shares (pay 5.60% from Feb 1)

As soon as you've made your first deposit (£1 or more), you start earning interest and can save any amount, any time with withdrawals whenever you choose.

Monthly Income Shares (pay 5.60% from Feb 1)

The safe way to ensure a regular monthly income. Invest a lump sum of £1,000 or more and you get a **monthly** income with interest paid direct to you or third party.

Term Shares (pay 5.85% from Feb 1)

Invest a lump sum of £100 or more for two years with the Temperance Permanent and it will earn you a guaranteed $\frac{1}{4}$ % interest above the current Investment Share rate.

System Saving Shares (pay 7.00% from Feb 1)

If you want to save a regular amount each month this is the profitable way to do it. Accounts can be opened for as little as £1, withdrawals are easy and monthly savings can be altered.

The Society also operates S.A.Y.E. and Lifebonds (a saving scheme linked to life assurance).

Find out more about the Temperance Permanent money-making schemes by ticking the appropriate box and posting this card.
